

MOSTAFA EAD

Tech Lead | Mobile, IoT & Cross-Platform Engineering
Cairo, Egypt | dev.mostafa.ead@gmail.com | +20 114 246 6596 | [LinkedIn](#)

SUMMARY

Engineering leader with 9+ years building production software and 7+ years specializing in cross-platform mobile. Have led distributed teams shipping consumer, IoT, fintech, and edtech products to global app stores. Comfortable owning technical strategy, end-to-end architecture, code-quality standards, CI/CD, hiring, and mentoring. Recent focus areas include AI agent systems, RAG architectures, and cloud-native backend, broadening the toolkit beyond mobile. Known for translating ambiguous requirements into shippable plans and growing the engineers around me.

EXPERIENCE

Senior Engineer, IoT | MST | Riyadh, KSA (Remote) | Dec 2023 – Present

- Lead Flutter and embedded-integration work on IoT product lines, owning architecture decisions across mobile, device, and backend boundaries.
- Drive technical direction for new modules and review designs from peer engineers; raise the quality bar for testing, error handling, and release readiness.
- Mentor 3 engineers across mobile and firmware.

Flutter Team Lead | Walturn | USA (Remote, Contract) | Mar 2024 – Jun 2024

- Led the Flutter team through delivery of a critical project phase under tight timelines, owning technical direction and day-to-day delegation across the engagement.
- Partnered with project leadership and product to keep the milestone on schedule; made architecture and implementation calls on scope, code structure, and review standards.
- Led 11 mobile developers to ship features across four applications.

Flutter Team Lead | ShopX | Cairo, Egypt | Nov 2022 – Dec 2023

- Led the mobile team for a global shopping platform: set team goals, broke down roadmap, delegated tasks, and held the team accountable to delivery dates.
- Owned end-to-end release pipeline; shipped iOS and Android apps to Google Play and App Store across multiple regions.
- Established code-review standards and CI/CD practices; mentored mid-level engineers on Flutter architecture, state management, and platform-specific concerns.
- Led a team of 5 mobile engineers; reduced crash-free rate from 30% to 2%.

Mobile Engineer | Age Language | Cairo, Egypt (Remote) | Jan 2017 – Oct 2022

- Built and maintained a portfolio of educational and consumer apps using Flutter, ActionScript 3, and JavaScript.
- Shipped products across [Google Play](#) covering school-management, edtech, and city-information categories — gaining end-to-end exposure from product spec to store release.

SELECTED PROJECTS

Leadership & Production Delivery

- **ShopX** ([iOS](#) / [Android](#)) — Led mobile team to ship global shopping app across stores.
- **Tank Payments** ([iOS](#)) — Financial account product purpose-built for freight carriers.
- **BizBuradayız** ([iOS](#)) — Roadside-assistance platform.

IoT & Smart Devices

- Thkey ([iOS](#) / [Android](#)) — Smart access-control app.
- Rack ([iOS](#) / [Android](#)) — Retail-store IoT automation.

EdTech & Consumer

- MiSK ([iOS](#) / [Android](#)) — Arabic learning for non-native children.
- Dalilak ([iOS](#) / [Android](#)) — City-information app.
- My Thinking Skills ([Android](#)) — Educational app for thinking-skill development.
- Skills ([Android](#)) — Children's skill-development app.
- Ad3ia ([Android](#)) — Arabic e-book reader.
- Wisdom ([Android](#)) — Interactive Arabic-learning activities.

Open Source & Capstone

- AWS ML Exam Practice ([GitHub](#)) — Community study tool for AWS ML Specialty candidates.
- AI Coder ([GitHub](#)) — Computer Science Diploma capstone project.

SKILLS

Leadership: Team leadership, Mentoring, Technical strategy, Code review, Roadmap planning, Agile delivery, Stakeholder communication.

Languages: Dart, TypeScript, JavaScript, Python, SQL, NoSQL, ActionScript 3.

Mobile & Frontend: Flutter (6+ years), iOS and Android delivery, Figma.

Backend & Cloud: Node.js, AWS, Google Cloud, RESTful APIs.

AI / ML: Applied Machine Learning, RAG architectures, AI agent systems, AWS ML Specialty.

Engineering: CI/CD, System design, Architecture decisions, Quality standards, Cross-platform development.

EDUCATION & CERTIFICATIONS

- Computer Science Diploma.
- [AWS Certified Machine Learning — Specialty](#).
- [Udacity Advanced Data Analysis Nanodegree](#).
